

EXTRACORPOREAL SUPPORT IN ACUTE LIVER FAILURE SYMPOSIUM

First symposium on extracorporeal support in acute liver failure organised by the Neonatal and Pediatric Intensive Care division and the Swiss Pediatric Liver Center.

This conference is designed for health care professionals who manage adult and pediatric patients (neonates to adolescents) with liver diseases. Internationally-recognized speakers will address the most challenging topic in the management of children with acute liver failure, including intensive care management and the use of extracorporeal support.

Tuesday October 1st 2019 from 12h00 to 16h30
Auditoire de pédiatrie Fred Bamatter, HUG, Geneva

Registration

Entry to the symposium is free but registration is required
